BUYER'S FINANCING FELL THROUGH so we are back on the market with a New Roof! Nestled on a quaint cul-de-sac this 2 story home sits on a large lot (extending beyond the enclosed wood fenced backyard). Step through the front door and be welcomed into a bright and airy foyer, with plenty of natural light and hardwood floors. The open-concept layout seamlessly connects the living room to the kitchen, creating a sense of fluidity and connectivity throughout the home. The heart of the home is the fireplace, a focal point for the living room and it's plantation shuttered.
