Wowza! We can't technically call the beautiful home "New" but it was taken all the way down to the foundation and rebuilt. That means EVERYTHING from the roof to the electrical to the plumbing is new. The owner even custom built a 12x16 outbuilding with garage door and replaced the water lines from the meter to the house. No stone has been left unturned. The septic is not new but has had the lid removed and cleaned. Furthermore, the home is on the list for free city sewer hookup when it comes.
